When cleaning goes beyond critical.

Facility Cleanliness Priorities

In times of emergency, cleaning and disinfecting is absolutely critical. All locations like hospitals, alternate care sites (ACS), critical manufacturing and warehouses, and grocery stores need to be kept clean. It's more important than ever to use proper cleaners and disinfectants during routine and daily cleaning, while sorbents can help with absorbing and cleaning up a variety of liquids.

Giving repurposed facilities functionality.

Temporarily Transforming and Repurposing Facilities

In times of crisis, it may be appropriate to transform a space into an alternate care site. Additionally, a critical infrastructure may require implementation of temporary safety measures, like directing the flow of customers or employees. With the right solutions from 3M, you can delineate spaces, mount and attach devices, help protect surfaces and unused equipment, route and protect vital cables and wires—and do it all without causing long-term damage. It's a smart and efficient way to temporarily transform a space in an emergency.
